### About Us

Social Finance is a national impact finance and advisory nonprofit. By working with the public, private, and social sectors, we create partnerships and investments to measurably improve lives. In the past decade, we have mobilized over \$225 million to help more than 35,000 individuals realize improved outcomes in education, economic mobility, health, and housing.

We are driven by the belief that social and economic systems should enable all people to thrive, and the conviction that we can create the most meaningful and measurable change in our communities when governments and markets work together. Our organization is built upon four core values:

- Putting people first
- Focusing on results
- Demonstrating the highest standards of integrity and accountability
- Building enduring cross-sector partnerships

And it is strengthened by a commitment to [diversity, equity, and inclusion \(DEI\)](#).

We work across three core practice areas: Impact Investing, Impact Advisory, and Field Building. Through our Impact Investing portfolio, we develop and manage innovative investments, including the [Career Impact Bond](#) and the [Social Impact Bond](#). In our Impact Advisory practice, we work alongside impact-focused leaders to implement outcomes-oriented approaches. And in our Field Building work, we share firsthand learnings and best practices to catalyze social impact in the field. Across all our work, which spans the public, private, and social sectors, we continually challenge ourselves and our partners to use funding and data in innovative ways to create lasting impact.
